Dear Madam

## **COMPLEMENTARY MEDICINES REGULATIONS, HOMOEOPATHIC QUACKERY & TRADITIONAL AFRICAN MEDICINES MORTALITY**

Please honour this attempt to draw the attached information to your personal attention, by taking the time to review the shocking information herein, of which you are presumably unaware, having not acted to date. The **genocide and ethnopiracy report** referred to, was in your absence at a meeting where you were expected, handed to your representative at the Traditional Medicines Working Group on 26 October 2000.

The question that most forcibly comes to mind is: "If you are familiar with these shocking facts, why have you not engaged the writer in constructive dialogue?" A logical extension of this would be: "If you are not familiar with these facts, why not?" Either way, I would appreciate a response and hopefully a constructive dialogue will ensue with all haste, so that the several problems identified by us and presumably withheld from you, for reasons still to be established, might be addressed to the benefit of the majority of our citizens.

I have enclosed my recent submission to the Dept of Health iro the proposed **complementary medicines regulations**, which you shall see, we are strongly opposed to in its current form. I have also enclosed the full-published Impila article referred to therein for your convenience. If you require additional documents, please use the URL's, which will yield several original documents, the archive or contact the writer directly.

I look forward to receiving word from you in due course, hopefully before this matter proceeds to the Courts.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Stuart Thomson', with a stylized, cursive script.

Stuart Thomson  
Director, Gaia Research Institute, National Co-ordinator, PHARMAPACT
